SETTO EXTERNAL STEEL DOORS

		DOOR PRICE INCLUDING THRESHOLD	DOOR PRICE INCLUDING THRESHOLD AND FITTINGS		
EXTERNAL STEEL DOORS	SICURO 68 RC3 44 dB	<p>DOOR CONSTRUCTION SICURO 68 solid leaf is made in rebated version with a thickness of 68 mm +/- 1 mm. The outer surface is made of sheet metal covered with PVC film. The surface is additionally protected by a protective film, which must be removed immediately after the door is fitted. The thermal insulation filling consists of wool. The leaf features a timber frame set around it. The door is fitted with a multipoint lock, Winkhaus, as standard, with a 92 mm pitch for a patented insert class C. The leaf is fitted with three anti-balance bolts. It is possible to shorten the door from 4.5 to 7 cm. The door frame is made of galvanised steel sections, covered with woodgrain laminate. A high-quality press-in gasket in the leaf and frame ensures that the door is tight and quiet. The leaf is made with a 4-sided rebate system. It has 3 tripartite hinges. The doors are designed for installation in residential, public and industrial premises as external interior doors. The doors are resistant to deformation and have a reinforced steel structure.</p> <p>INOX appliques should be maintained every six months with a specialised stainless-steel cleaning and maintenance product.</p>

EXTERNAL STEEL DOORS	GRANDE PLUS	<p>DOOR CONSTRUCTION A GRANDE PLUS solid or glazed leaf is made in the rebated version with a thickness of 68 mm +/- 1 mm. The outer surface is made of the highest quality sheet hot-dip galvanised coated with PVC foil. The surface is additionally protected by a protective film, which must be removed immediately after the door is fitted. The thermal insulation filling is expanded polystyrene. The leaf features a timber frame set around the leaf, and reinforcements where the hinges and locks are fitted. The door is fitted with a multipoint lock, Winkhaus, as standard, with a 92 mm pitch for a patented insert. The leaf is fitted with three anti-balance bolts. It is possible to shorten the door from 4.5 to 7 cm (depending on the model). The door frame is made of galvanised steel sections, covered with woodgrain laminate. You can also buy a TERMO (set of hinge covers included) or ENERGO frame. A high-quality press-in gasket in the leaf and frame ensures that the door is tight and quiet. The leaves are made in the 4-sided rebate system and have 3 three-part hinges used in burglar-proof doors. The doors are designed for installation in residential, public and industrial premises as external door. The doors are resistant to deformation, weather conditions, have a reinforced steel structure, and increased resistance to moisture.</p> <p>GLAZING Decorative glazing with INOX stainless steel frames, brushed structure. They are characterised by the lack of joining of elements in the corners and the absence of assembly plugs on the inside. MILKY, MIRROR, REFLEX in BRONZE, on special request TRANSPARENT, GRAPHITE NEW (at extra cost), BLACK (at extra cost) glazing and optionally safety glass P4 (at extra cost for each type of glazing). INOX frames should be maintained every six months using a specialised cleaning product for stainless steel maintenance.</p>

		<p>DOOR CONSTRUCTION A MODERN, CLASSICO, J-TYTANIUM solid or glazed leaf is made in the rebated version with a thickness of 56 mm +/- 1 mm. The outer surface is made of the highest quality sheet metal hot-dip galvanised covered with PVC foil, available in the following colours: golden oak, mahogany, walnut, wenge, white and anthracite. The surface is additionally protected by a protective film, which must be removed immediately after the door is fitted. The thermal insulation filling is expanded polystyrene. Reinforcements were installed in the leaf where the hinges and locks were seated. As standard, the door is fitted with two three-bolt locks with a patent insert. The leaf is equipped with a gasket and three anti-balance bolts. It is possible to shorten the door from 2.5 to 7 cm (depending on the model). The door frame is made of galvanised steel sections, coated with woodgrain laminate in a folding version. Also available as SOLIDO aluminium or ENERGO timber/aluminium frame, veneered with PVC veneer in the same colour as the leaf. A high-quality press-in gasket in the leaf and frame ensures that the door is tight and quiet. The leaves are equipped with 3 tripartite hinges used in burglar-proof doors. The doors are designed for installation in residential, public and industrial premises as external interior doors. The doors are resistant to deformation and have a reinforced steel structure.</p> <p>GLAZING Decorative glazing with INOX stainless steel frames, brushed structure. They are characterised by the lack of joining of elements in the corners and the absence of assembly plugs on the inside. MILKY, MIRROR, REFLEX in BRONZE, on special request TRANSPARENT, GRAPHITE NEW (at extra cost), BLACK (at extra cost) glazing and optionally safety glass P4 (at extra cost for each type of glazing).</p> <p>INOX frames should be maintained every six months using a specialised cleaning product for stainless steel maintenance.</p>
